LANGUAGES

English

EDUCATION

Bachelor of Science:

Information Technology

Expected Graduation:

December 2023 | GPA: 3.0

Relevant Coursework:

Data Analysis, Power BI, Python, Excel, Tableau, Data Storytelling

PROJECTS

Project 1:

Sales Data Analysis and Visualization

- Analyzed a large dataset of sales transactions using Excel and Power BI to identify monthly and regional sales trends.
- Created interactive dashboards highlighting key metrics such as revenue growth, product performance, and customer segments.
- Provided actionable insights that could support business decision-making and strategy planning.

Project 2:

Customer Behavior Analysis Using Python

- Used Python libraries (Pandas, Matplotlib, Seaborn) to clean, process, and analyze customer data from an e-commerce platform.
- Performed segmentation based on purchasing patterns and demographics to identify high-value customers.
- Presented findings through clear visualizations and summary reports to guide targeted marketing efforts.

EXPERIENCES

Data Analyst

Keeta

Feb-2024 to July-2024

- Cleaned and prepared datasets for analysis.
- Performed statistical analysis to identify trends and patterns.
- Developed data visualizations and generated reports to support business decisions.
- Automated data workflows using power BI and python to improve efficiency.
- Collaborated with stakeholders to gather requirements and translate them into actionable insights.

Freelance

BI Developer

Jan-2023 to Nov-2023

- Designed and implemented data models for BI solutions.
- Managed ETL processes for data integration and transformation.
- Configured user access and maintained security protocols for BI platforms.
- Created interactive dashboards in power BI and tableau to visualize KPIs and business metrics.
- Optimize data queries and performance to ensure fast and accurate reporting.
